

11"

You can use some kind of decorative cut on this top edge, if you wish. I used my Spellbinders Scalloped Paisley Nestability die, but you could also use a Coluzzle and do a rounded edged flap as well, or even use a simple corner rounder punch.

8-1/2"

Gift Card Folder
Outside dimensions:
4-1/4" x 11",
trimmed at the top,
and folded on
the dotted lines

4-1/4"

I used my Stampin' Up word window punch to create the opening for the gift card, but you could use a sliding blade paper cutter or an exacto knife and simply cut a slit as well. If you use the Word Window punch, insert it fully onto the bottom edge of the cardstock, because you will need to punch twice in order to get the opening wide enough for a gift card.
